## VANQUISH COUPE

### Exterior

With its assertive presence and elegant proportions, Vanquish seamlessly blends sophistication and power. Its front grille feeds the colossal V12 engine, with distinctive Thermo Louvres serving as air outlets. Vanquish's Kamm tail showcases Aston Martin's new Shield, serving as a customisable canvas, surrounded by seven unique light blades and quad exhausts.

This configurator is not an offer to sell and is merely an indication of the types of Aston Martin vehicles, options or accessories which may be available from time to time and which may be ordered or purchased from an authorised Aston Martin dealer. Any purchase is subject to the terms and conditions of sale (including price) issued by the particular dealer. Any vehicles illustrated may include additional options at the time of any sale that are not featured here. Each vehicle or option described in this document is subject to availability. Features and specifications may vary according to each market. All information in this document is subject to change by Aston Martin without notice. Aston Martin makes no warranties, representations, or guarantees of any kind, express or implied, in relation to the vehicles and options presented including but not limited to, the accuracy, currency, or completeness of the information given in the Aston Martin vehicle configurator.

Official government fuel consumption figures in litres/100km (mpg) for the Aston Martin Vanquish Coupe: WLTP Low 26.2 (10.8); WLTP Medium 14.1 (20.1); WLTP High 11.1 (25.5); WLTP Extra High 11.1 (25.5); WLTP Combined 13.7 (20.7). WLTP CO2 Emissions 312 g/km (NEDC Combined CO2 - for information only 314 g/km). Urban RDE trip NOx 60.0 mg/km, PN N/A; Complete RDE trip NOx 60.0 mg/km, PN N/A. PEMS ID: 05-SCF-0035-0; TA Number: e9\*KS07/46\*6655\*09

Further information on the official fuel consumption and the official specific CO2 emissions of new passenger cars can be found in the "Guide to fuel consumption, CO2 emissions and power consumption of new passenger cars", which is available at all sales outlets and at DAT Deutsche Automobil Treuhand GmbH, Hellmuth- Hirth-Str. 1, D-73760 Ostfildern or at [www.dat.de](http://www.dat.de) free of charge.

The specified consumption and emission values were determined in accordance with the legally prescribed harmonized test procedure for passenger cars and light commercial vehicles ("Worldwide Harmonized Light Vehicles Test Procedure", WLTP), a more realistic test method for measuring fuel consumption and CO2 emissions than the previous New European Driving Cycle ("NEDC") method. The fuel consumption you achieve under real life driving conditions and the CO2 produced will depend upon a number of factors including the accessories fitted after registration, driving style, climate conditions and vehicle load.
